

Unmend

In the morning
send a warning
for I've lost my way through life
pity life

Just a young man
leave the old way
to another great advice
better think twice

Ease to say now
free to tell how
from the back seat of life
back seat of life

When you're sleeping
if you're ever
I will always let you down

you can't unmend your head
and I want u to go free
like we can go everyday

And I want u to excel
and I can't go out and
free all the pain that's in your head
