

# Star

We live, drifting with time  
No one can tell, when it will fail  
afraid of it all  
knock down the wall

When you're young  
you get that feeling done, you still over  
come the change  
and make it through it all  
a different man

Means to a dream  
fading with years  
tainted with greed  
take your cash out and plead  
fly, free as your consciousness rise  
fear as they blind your mind

When you're young  
you get that feeling done, you still over  
come the change  
and make it through it all  
a different man
