

Gentilia girl

Pick me up
when you stop
on your baggy car for a ride

King of the road baby
you're keen to your hopes
as you, can't always act up
to the signs

Put your ass in my face
ohh gentile girl
let me know I'm with you
take me away on your planes
for every day
that I grow young with you

We're east to the cape
by the lamb on the path
chasing all the lies in my head

Down in L.A woman
even the whores are a sellout
as you guide your way to the show

Put your ass in my face
ohh gentile girl
let me know I'm with you
And when it ends
with a small town man
you can't say I never knew
you can guess where he turned to
as he...
